

# AGATHA CHISOM EZE, MBBS

Medical Virtual Assistant | Medical Assistant | Clinical & Administrative Support

Abakaliki, Ebonyi State, Nigeria | ezeagathachisom299@gmail.com

## PROFESSIONAL SUMMARY

MBBS-qualified medical doctor with clinical healthcare experience and specialized training in Medical Virtual Assistance and U.S. healthcare administrative workflows. Experienced in patient information, clinical documentation, medical records, medical terminology, and electronic health records. Trained in EHR/EMR systems including eClinicalWorks, SimplePractice, TherapyNotes, and DrChrono, with practical training in patient chart management, documentation, insurance eligibility and benefits verification, referrals, prior authorizations, and U.S. healthcare administrative workflows, including Availity. Highly detail-oriented, organized, tech-savvy, and comfortable following physician instructions, identifying incomplete information, maintaining confidentiality, and escalating issues appropriately.

| Attention to Detail                           |                                      |                                |

## MEDICAL VIRTUAL ASSISTANT TRAINING

- Trained in reviewing and updating patient information and clinical documentation within EHR/EMR environments.
- Developed practical familiarity with eClinicalWorks, SimplePractice, TherapyNotes, and DrChrono.
- Trained in patient chart preparation and organization for physician review.
- Practiced reviewing medical documentation and identifying missing or incomplete information for appropriate escalation.
- Trained in insurance eligibility and benefits verification, including coverage, copays, deductibles, referrals, and authorization requirements.
- Developed practical familiarity with Availity and U.S. insurance verification workflows.
- Trained in referral coordination and tracking and prior authorization workflows.
- Practiced HIPAA-compliant handling of patient information, medical data entry, document uploading, scanning, electronic faxing, and records organization.
- Trained to follow physician instructions accurately without making independent clinical decisions.

## PROFESSIONAL EXPERIENCE

### Nigerian Navy Reference Hospital — Medical Doctor / Clinical Medical Officer

November 2023 – August 2025

- Provided clinical care and communicated professionally with patients across a healthcare setting.
- Reviewed and documented patient histories, clinical findings, investigations, diagnoses, and treatment plans.
- Maintained accurate and confidential patient documentation and handled sensitive patient information professionally.
- Reviewed laboratory and diagnostic information and incorporated relevant findings into patient care and documentation.
- Coordinated patient care and referrals when specialist input was required.
- Communicated medical information clearly to patients and healthcare colleagues.
- Managed multiple clinical responsibilities while maintaining accuracy and attention to detail.
- Recognized incomplete or clinically significant information and escalated appropriately.
- Worked collaboratively with multidisciplinary healthcare teams.

### Medical Internship / House Officer — Clinical Rotations

Paediatrics | Surgery | Internal Medicine | Obstetrics & Gynaecology

- Managed and documented patient encounters across multiple clinical departments.
- Obtained and reviewed patient histories and clinical information and prepared accurate medical documentation.
- Reviewed laboratory and diagnostic results under appropriate clinical supervision.
- Communicated with patients, relatives, nurses, and other healthcare professionals.
- Participated in referrals and multidisciplinary patient-care coordination.
- Developed strong attention to detail through high-volume clinical documentation and patient management.
- Worked within established clinical protocols and escalated concerns appropriately.
